

# With a wealth of clients in both the private and public sectors, MAC Roofing's experience in new build construction stretches back over four decades

# A Company You Can Rely On

With any new build project, construction teams, including Project Managers and Quantity Surveyors, cannot afford to take any risks with the structural waterproofing of their buildings.

With a successful track record stretching back over 40 years, MAC Roofing knows what it takes to deliver a dependable, quality service. With a commitment to ensure that projects run smoothly without any unnecessary issues, you can rest assured that MAC Roofing will not let you down.

That's why clients and main contractors nationwide have come to rely upon MAC's professional approach to delivering outstanding roofing and cladding solutions.

# The MAC Roofing Difference

Successful track record in new build projects across multiple sectors

Capability to take on roofing projects of any scale

Ability to meet tight project deadlines and achieve budgetary targets

One of the widest skill-sets of any roofing contractors in the UK

Exceptional Health & Safety record

# **Expertise Across Multiple Disciplines**

MAC Roofing's ability to install multiple types of roofing, cladding and structural waterproofing systems is truly second to none.

With over 100 directly employed operatives, MAC's workforce includes roofers, joiners and plumbers, giving you access to an unrivalled, multi-disciplined installation service.

Furthermore, with experience in everything from traditional flat and pitched roofing to standing seam and cladding, MAC Roofing are proud to be able to offer an all-embracing service that many others simply cannot match.

Working with the UK's leading manufacturers, MAC is able to offer installation expertise across a broad range of external waterproofing disciplines.

# **Investment in Quality, Investment** in People

MAC's commitment to achieving the highest possible standards is reflected in its collection of widely recognised industry accreditations. For example, MAC has attained the ISO 9001:2008 quality management standard and its dedication to sustainability has also earned MAC the ISO 14001 environmental management standard.

MAC is also proud to be accredited to Level 5 of the Achilles BuildingConfidence scheme. This highly respected industry initiative aims to promote best practice in the sector, and the Level 5 Award recognises MAC's ongoing excellence in health and safety, carbon reduction and other critical supply chain areas.

In addition, MAC recognises that continual training and development of its employees is critical to the success of its business. As a result, it has successfully attained the Investors in People SILVER award, which formally recognises MAC's commitment to developing a culture of learning and progression for its people.
