

Specialist Contractors for

Inner City Projects

“ We look forward to playing our part in an ever-changing, dynamic construction industry and continuing to deliver quality and reliability on every project. ”

With over 45 years' experience, MAC Roofing has the capacity and know-how to deliver multi-disciplined projects of any scope all across the UK.

Introduction to MAC Roofing

Based in Bromborough, Wirral, and with additional strategic offices situated around the UK, MAC Roofing are perfectly placed to offer an unrivalled, one-stop roofing and waterproofing solution for inner city projects of all kinds.

As well as being one of the UK's Top 10 specialist installers of roofing and cladding systems, we are a family business and have worked hard to develop a reputation for delivering high quality workmanship, combined with outstanding technical support and customer service.

A Problem-Solving Approach

We take time to listen to our clients' in order to fully understand their requirements. This then puts us in the best possible position to deliver an effective, long-term solution that fully meets the brief. For complicated roofing or cladding requirements, our experienced team will be able to offer practical and innovative ways to overcome any potential problems that may arise.

Committed to Excellence

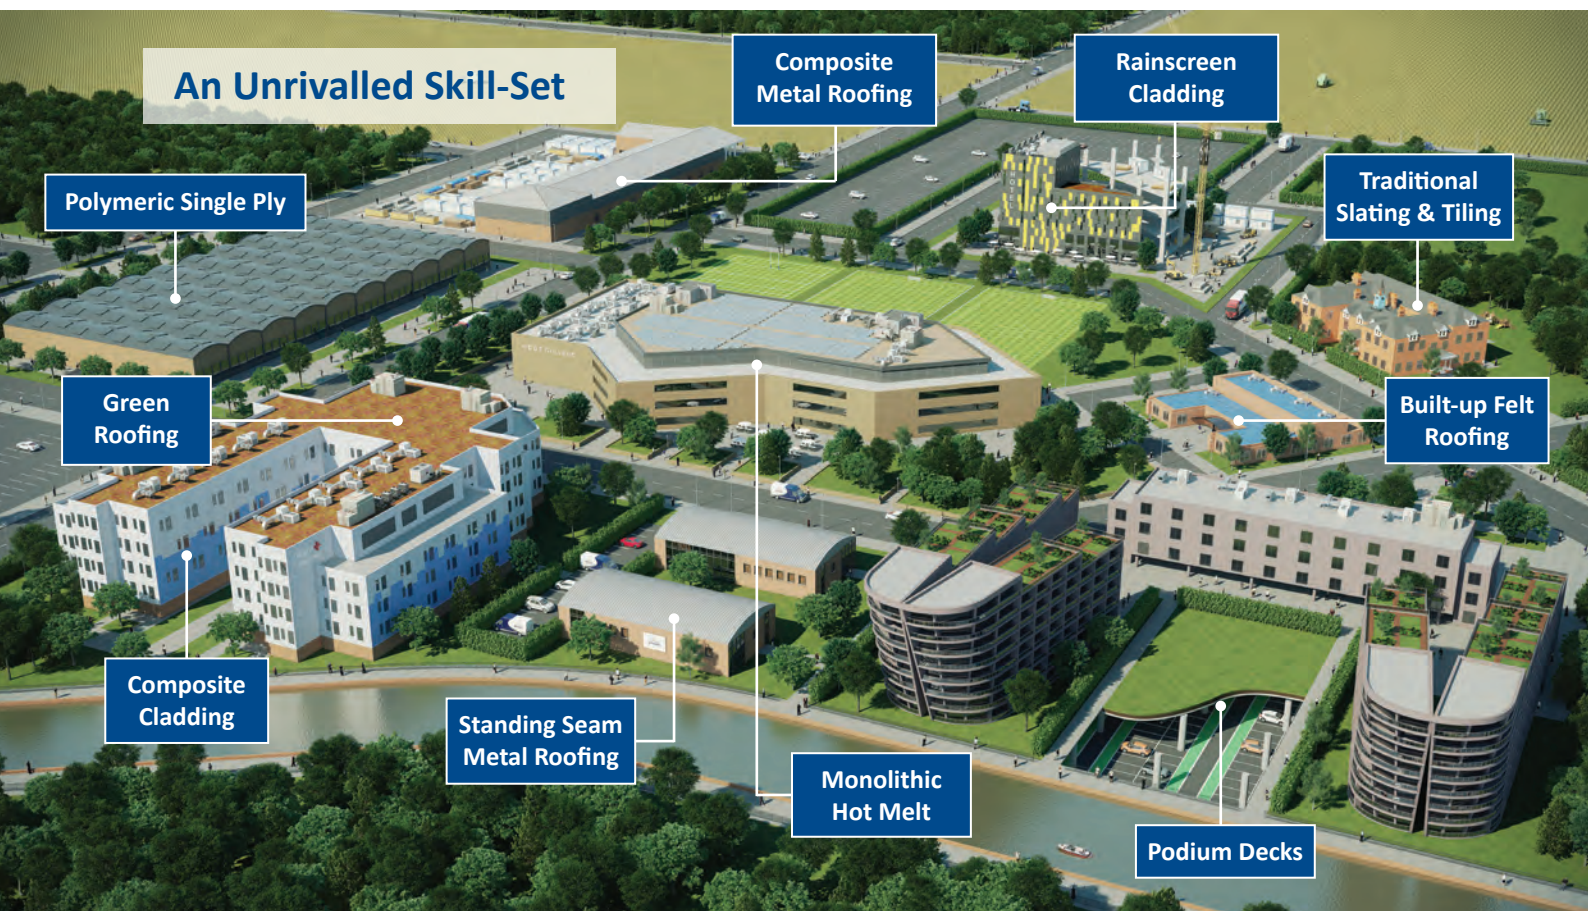

When it comes to delivering successful roofing and cladding schemes in inner city locations, MAC Roofing really stands out from the crowd.

Our dedicated offering includes:

- ✓ An extremely wide skill-set with the ability to take on a diverse range of roofing & cladding projects
- ✓ Expertise in both flat & pitched roofing, as well as specialist cladding
- ✓ Experience in delivering both new build and refurbishment projects
- ✓ Comprehensive specification advice and full technical support
- ✓ Exceptional standards of Health & Safety on every project
- ✓ Ability to achieve budgetary targets and meet tight project deadlines

Trusted by Major Clients Nationwide

MAC Roofing has become the trusted roofing partner of the largest and most respected main contractors, developers and clients across the UK:

Completing Projects Safely

With over 250 directly employed operatives, MAC's workforce includes roofers, cladders, joiners and lead workers, giving you access to an unrivalled, multi-disciplined installation service.

Safety is also extremely important when carrying out roofing or cladding projects of any kind. The health and wellbeing of all individuals onsite is our number one priority and we take all necessary steps to achieve this. MAC Roofing has an outstanding health and safety record and holds numerous industry accreditations in this area.

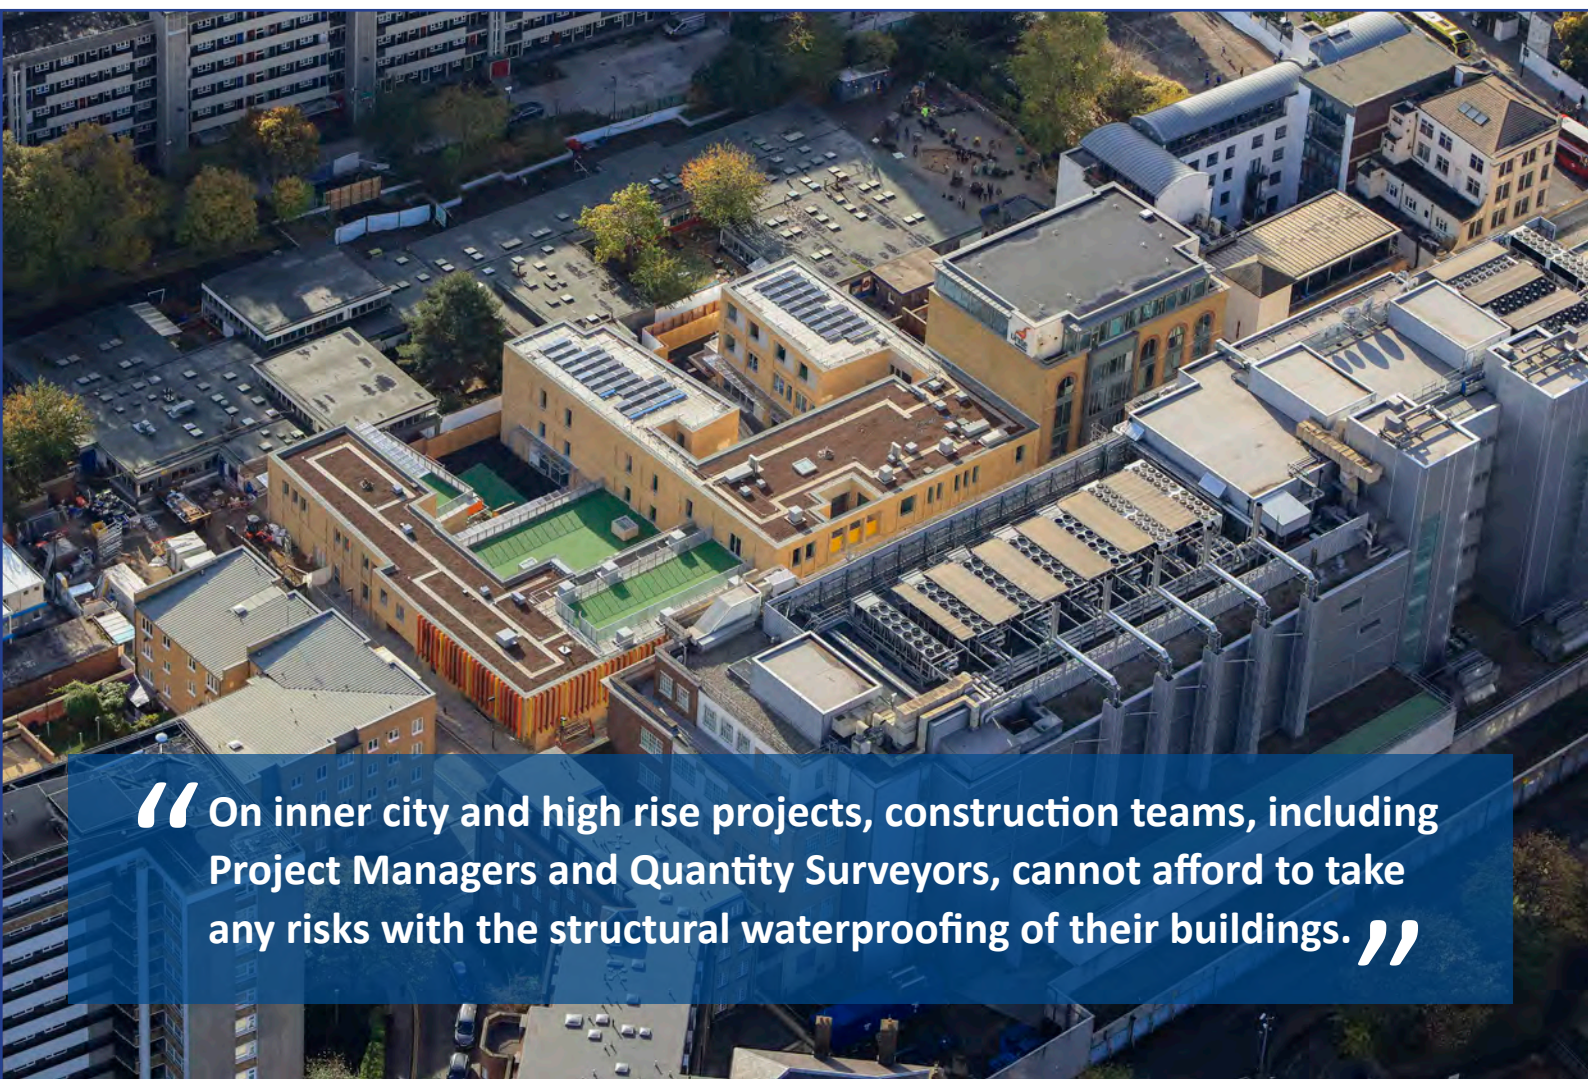

Independent Knowledge & Advice

For projects where the choice of roofing solution may still be in question, MAC Roofing can really add value. With extensive experience in all aspects of roofing and cladding, MAC can offer independent, impartial advice, ensuring that a 'best-fit' solution is specified for each and every project.

Value Engineering When it Counts

MAC Roofing understands the budgetary constraints that main contractors and clients have to operate within. That's why we work closely with quantity surveyors and estimators to ensure that the best-value roofing option is developed for every project.

From smaller projects to multi-million pound contracts, MAC Roofing has the proven expertise to deliver exactly what you need. Having worked on countless prestigious new build developments across the UK, we can offer unrivalled peace of mind, expert advice and reliability.

“ On inner city and high rise projects, construction teams, including Project Managers and Quantity Surveyors, cannot afford to take any risks with the structural waterproofing of their buildings. ”
